1601MC Church Planting and New Ministry Starts

Whether you are considering starting a new church or a new program of outreach, this course will provide you with information about the most recent models, methods of starting new outward-focused faith communities and resources pertinent to launching and developing wholistic ministries that are in touch with the culture and world outside of the church.

During the week, we will explore such related topics as:

- How to accomplish mission with small groups, low budgets, and limited resources
- How to build a permission-giving leadership team that empower others to create, lead and serve in mission according to their gifts and call
- How to create a flexible church system that embraces growth without sacrificing missional engagement
- Starting inclusive communities of faith that bridge cultural gaps to share common mission
- How to live-out our Christian faith in new and creative ways while drawing from biblical foundations and historic traditions
- Resourceful and creative ways of financing new missional churches and their leaders
